Parasitism of *Taphrina deformans*, The life history and 305
Parasitology, The economic importance of 540
Pasture, Cereal grain crops for annual 569
Pastures, The effect of some commercial fertilizers on the botanical composition and yield of permanent 57
Pathogenicity in crosses between physiologic forms of *Puccinia graminis tritici* Erikss. and Henn., Further studies of the inheritance of spore colour and 360
Peach canker investigations. I. Some notes on incidence, contributing factors and control measures 32
Philosophy from an agriculturist 345
Picking in relation to spot scald, Gravensteins—the time of 608
Plant nutrition, Studies in. A report of experiments in progress at the Long Ashton Research Station 117
Pilchard oil (sardine oil) for growing chicks, The antirachitic value of 136
Position of agriculture in the economic life of Canada, The 297
Potato blackleg, Seed treatment for 70
Prevention of cereal rusts by sulphur dusting (1930-1932), Field experiments on the 496
Puccinia graminis avenae Erikss, and Henn., A study of the relation of environment to the development of the uredinial and telial stages of the physiologic forms of 184
Puccinia graminis tritici Erikss. and Henn., Further studies of the inheritance of spore colour and pathogenicity in crosses between physiologic forms of 360

Quantitative methods in the study of forest insects 477
Quebec, The cost of manufacturing cheese in 446

Recurvaria nanella Hbn., Notes on the lesser budmoth 466
Relation of agricultural services to changing conditions, The 165
Relation of insect activities to forest development as exemplified in the forests of Eastern North America, The 8
Resistance of wild oats and some common cereal varieties to freezing temperatures 645
Rust injury on the vigour and yield of timothy, Influence of 550
Rye through inbreeding, Improvement of 651
Rootrot of oats, A preliminary note on an unreported 50

Saskatchewan, Capital invested per sheep ranch in the Maple Creek and Great Sandhills area of southwestern 336
Scald, Gravensteins—the time of picking in relation to spot 608
Seed treatment for potato blackleg 70
Sex difference in chick growth, Variation of 443
Sheep ranch in the Maple Creek and Great Sandhills area of southwestern Saskatchewan, Capital invested per 336
Significance determination numbers 547
Soil in Southern Ontario, A comparison of temperatures in air and at various depths in a light sandy 353
Soils, the necessity of growing legumes on gray wooded 327
Studies in plant nutrition. A report of experiments in progress at the Long Ashton Research Station 117
Studies of the inheritance of spore colour and pathogenicity in crosses between physiologic forms of *Puccinia graminis tritici* Erikss. and Henn., Further 360
Studies on vim oat feed. II. The digestibility of oat hulls 633
Studies on the malting quality of barley 131
Studies with fragaria II, Nutritional 411
Study of forest insects, Quantitative methods in the 477
Sturgeon, A note on the vitamin A and D content of oil from the testes of a 614
Sulphur dusting (1930-1932), Field experiments on the prevention of cereal rusts by 496
